About Golem

A leading German tech publication founded in **1997**, serving **3 million professionals with 10 million monthly reads**, known for its high-tier **software and hardware analysis** and its sharp coverage of net-politics—making it an essential resource for the serious IT workforce.

Current Obstacles

Demographic Gap

A heavily male-dominated audience limits long-term growth and reduces the diversity needed for a sustainable future user base.

Interface Friction

Overloaded navigation and dense advertising create unnecessary friction, falling short of modern UX expectations and reducing user satisfaction.

Passive Marketing

A conservative, low-visibility marketing approach weakens brand momentum and misses opportunities for active engagement with new audiences.

Strategic Growth Opportunities.

UI/UX Modernization

Streamline navigation and layout to support high-density content while improving readability and overall flow.

Social Proactivity

Adopt active, platform-native strategies to grow visibility and relevance among Gen Z and Millennial audiences

User Journey

Design clearer pathways that guide passive readers toward becoming loyal, recurring subscribers.

Ad Experience Cleanup

Reduce ad density and refine placement to create a cleaner, more trustworthy reading experience that meets modern standards.

Audience

Current Audience

Profile:
30–50 years old, predominantly male, IT admins and developers.
Values:
They prioritize fact-driven depth, technical clarity, and a serious, professional tone.

New Audience

Profile:
20–30 years old, Gen Z, UI/UX designers, junior developers
Values:
They respond to snackable visual content, career-growth insights, and light information.

User Persona

Clara, 25
Junior UI/UX Designer

Berlin-based expat, single, mobile-first consumer. Very active on Instagram/YouTube. Prefers fast, visual learning.

01 Motivation

Staying updated on tech/design trends. Growing skills as junior designer. Finding inspiration for portfolio.

02 Frustration

Most websites feel dry, text-heavy, and slow. Hard to find content that fits visual learning style. Cluttered layouts.

03 Goals

Keep up with tech/design topics. Build credibility. Discover opportunities in Berlin scene.

04 Needs

Bite-sized tech updates. Short videos, summaries, and clean UI. Content supporting career/lifestyle.

Shifting Market Dynamics

Mobile-First Shift

Young audiences increasingly consume news through Instagram, TikTok, and YouTube.

Social-Driven Discovery

Social platforms are becoming the primary entry point for Gen Z news consumption.

New Monetization Models

Growing demand for exclusive micro-content, paid topic bundles, and Substack-style updates.

Website Experience Issues

Heavy layouts and aggressive ads push away non-subscribers and casual readers.

High-Impact Content Ideas

Social-First Content

Short, high-energy reels and clear tech explainers designed to capture younger audiences where they already spend their time.

Podcast Amplification

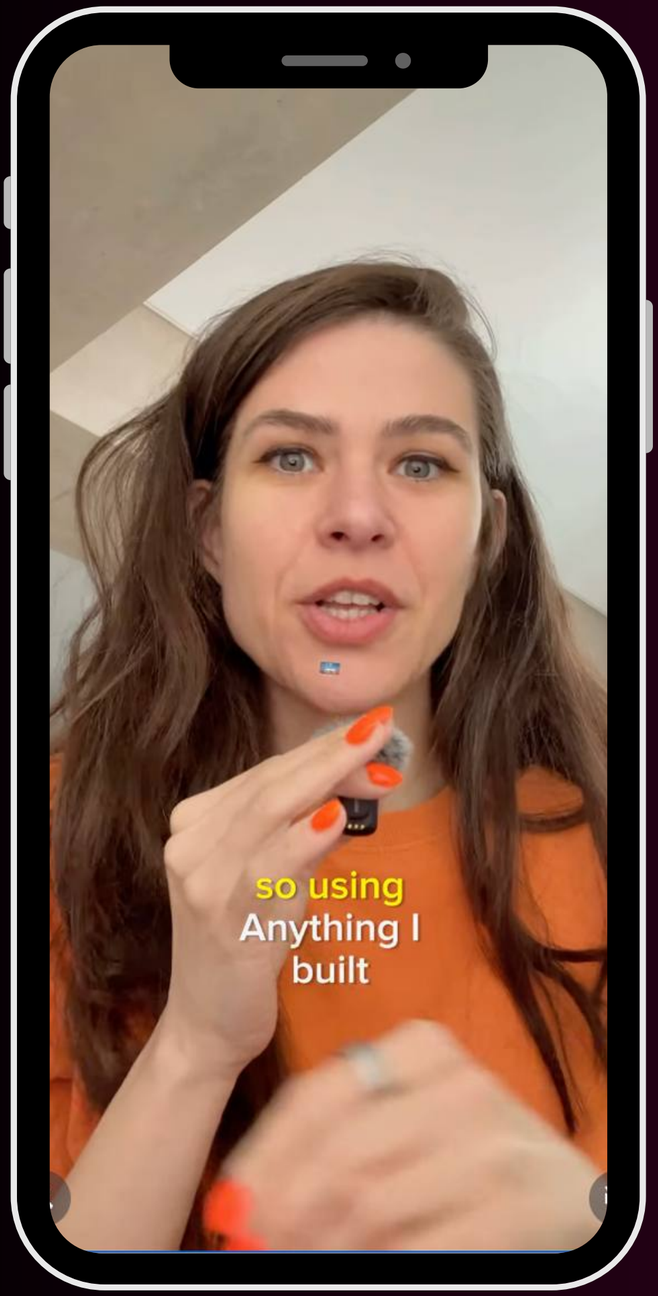

Weekly podcast highlights repurposed into bite-sized reels to extend reach and keep the content visible across platforms.

Career & Trend Focus

UX/UI insights, job-market trends, and device updates crafted specifically for young professionals building their careers.

Key Performance Goals

+5%

Female Audience in 12 Months

Grow female readership from 5% to 10% by expanding relevance and representation.

+40%

Social Media Followers in 6 Months

Boost reach through accelerated growth on Instagram and YouTube Shorts.

+30%

Engagement Rate Increase in 6 Months

Increase interaction through reels, polls, stories, and podcast-driven micro-content.

+20%

Website Traffic From Social in 9 Months

Use short-form content as the primary funnel to drive more users to the site.

Posting Plan

Monday → Career tips, UX/UI insights, and trend breakdowns
Tuesday → Short tech explainer reel (30–45 seconds)
Wednesday → Podcast snippet repurposed as a reel
Thursday → Poll, story, or interactive Q&A
Friday → Device update, news recap, or weekly tech summary
Saturday → Light entertainment (POVs, behind-the-scenes)
Sunday → Motivational or career-growth content

Thank you
