Project KIWI Buzz

KIWI®

OPENING DOORS

By Prof:Jürgens, Pepe

Group: Salwa,Tetyana, Rashela, Iris

About KIWI

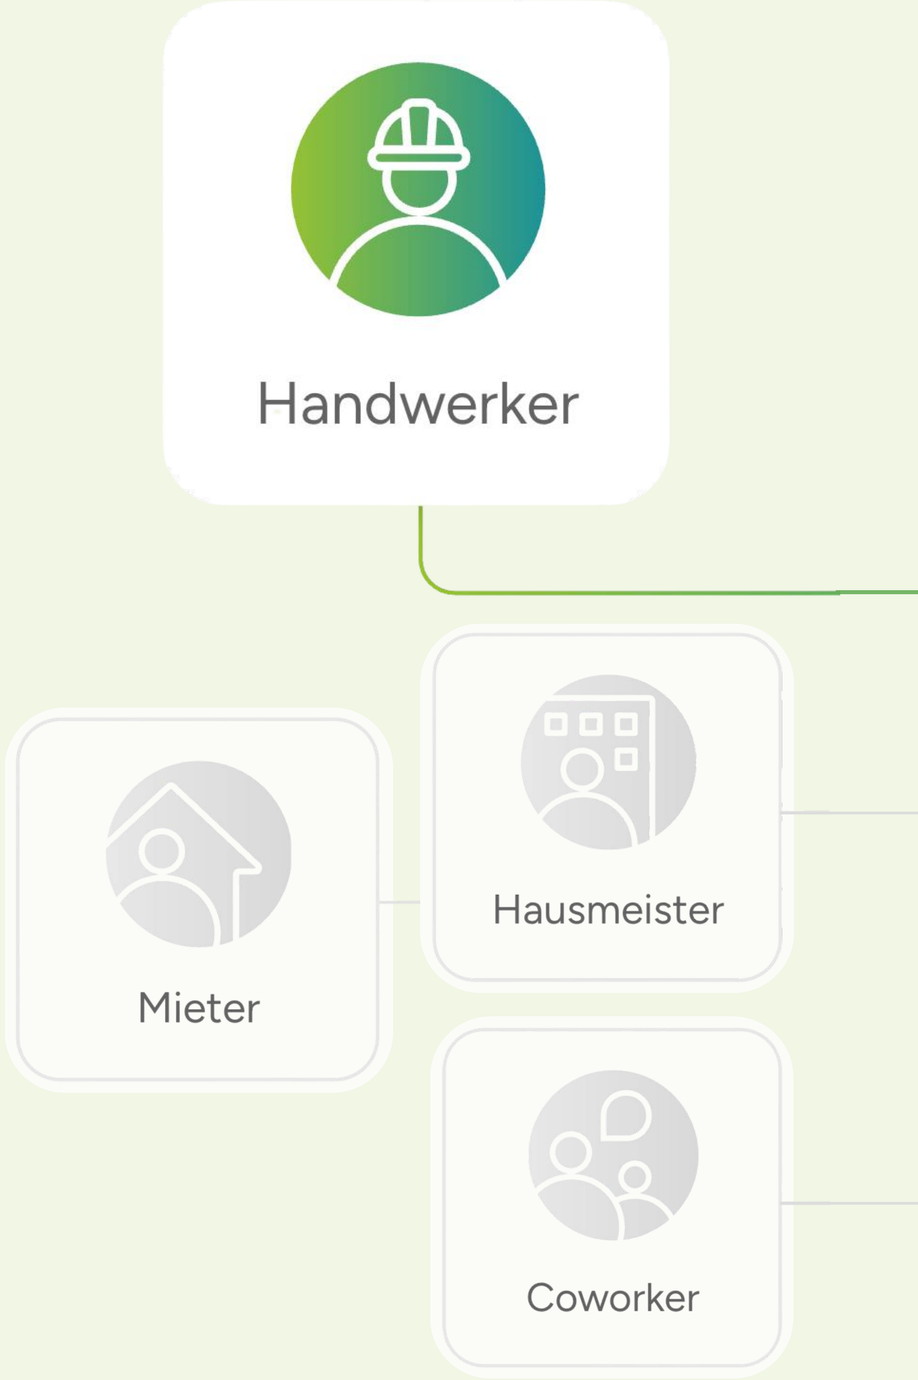

provides Digital access solutions for residential buildings

- Existing digital access infrastructure
- Multiple stakeholders (clients & temporary users)
- Security, reliability & scalability constraints

Project Scope

- Short-term / one-time access
- Technicians (primary case)
- No permanent accounts
- Area & time restricted access
- Instant clarity required

Core Problem

Time-Consuming

The app feels overwehlming and time consuming

Stressful Process

As a technician this whole process doesnt feel intuitive.

Platform Switching

Switching from app store, email, phone and the app is confusing.

Explored Solution

Quick & Simple

QR code leads directly to the app, eliminating delays.

Stress-Free

Easy-to-follow process. Fill out the form and wait to gain accsess.

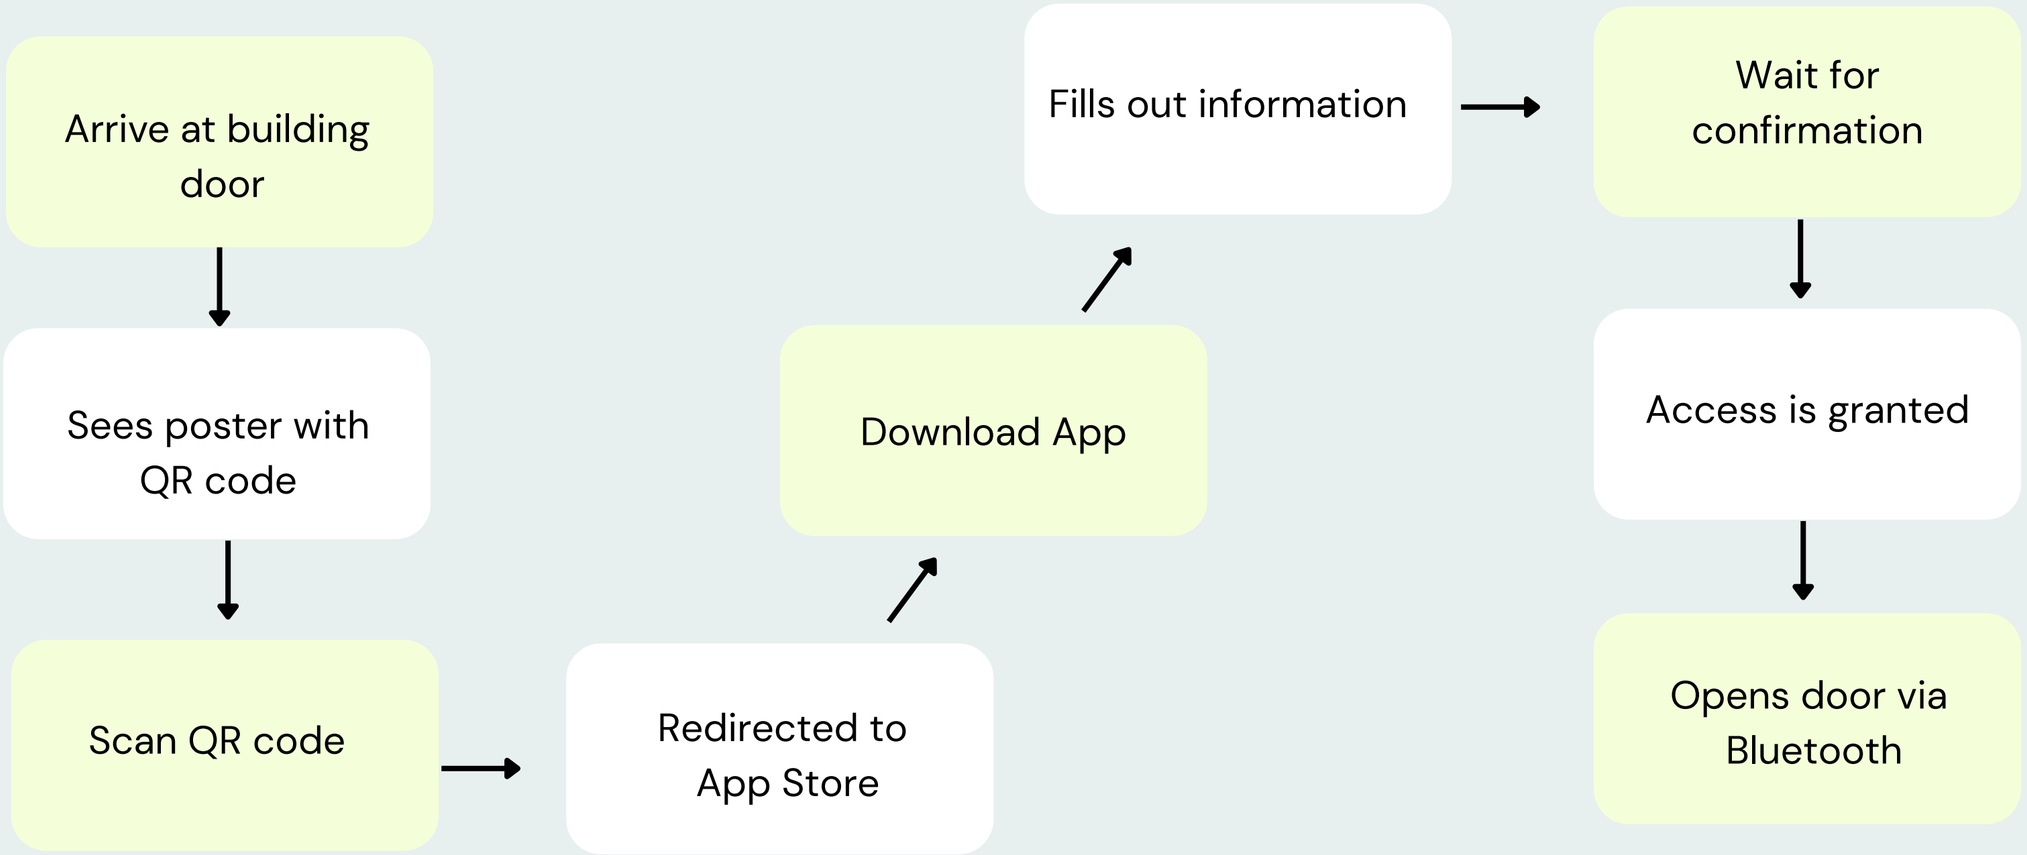

One Platform

All tasks handled in one app. No platform switching.

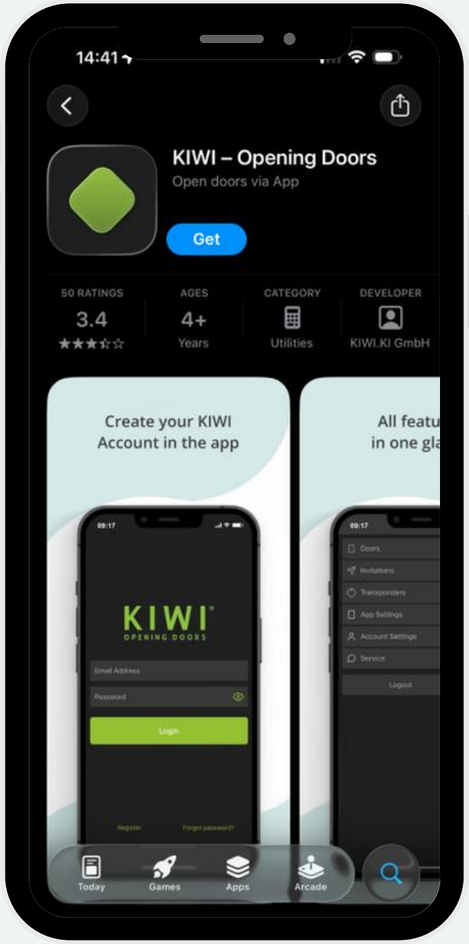

Updated Userflow

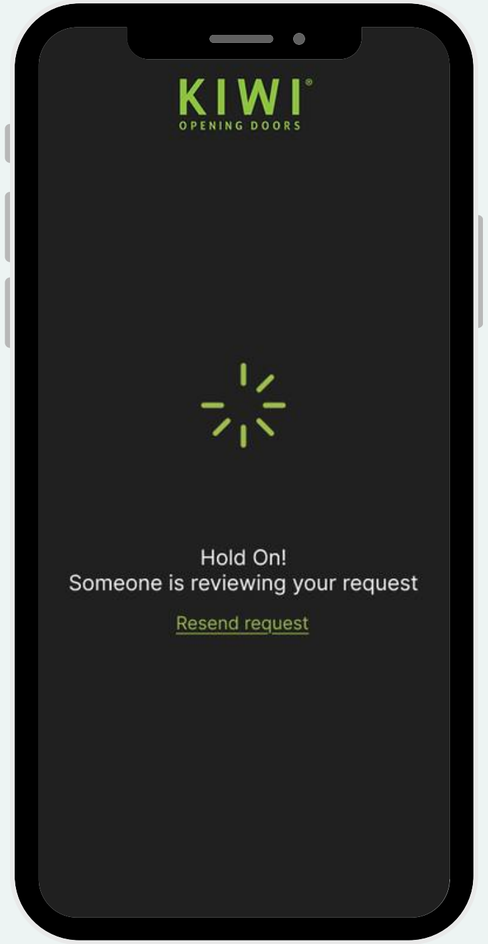

self-service; guided; digital-first; the central tool for access

KIWI 2030

AI-Powered Access Control

Automated Access

AI automatically recognizes users and grants access, with no admin involvement.

For Technicians

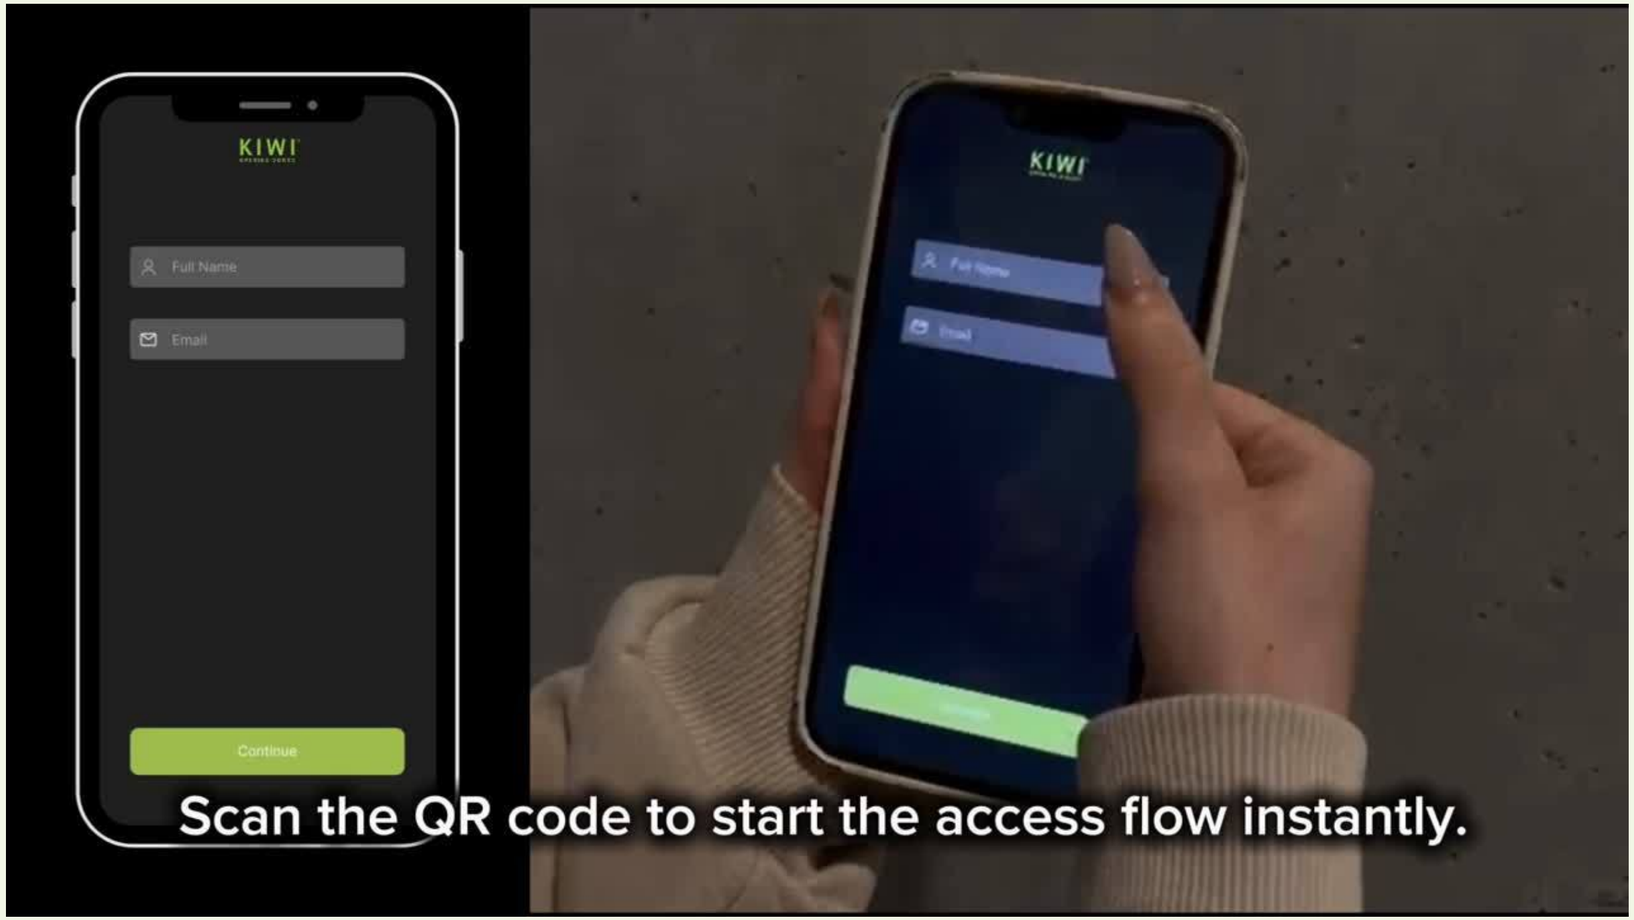

Provides emergency instructions and identifies the correct door.

For Property Managers

Helps set access rules, manage permissions, and explain logs.
