Salwa Mustafa

UX Design & Content Creation Student

Empathetic, detail-oriented UX/UI designer and content creator with hands-on experience across user research, interface prototyping, 3D/motion design, and packaging. Passionate about building intuitive, emotionally resonant experiences — especially for environmental and social impact — and about translating research into clear visual storytelling. Comfortable working directly with external partners, from strategy decks to shippable prototypes, in Figma, ProtoPie, Unity, WordPress, and Adobe Creative Suite.

EDUCATION

SRH University Berlin
B.A. in UX Design and Content Creation · 2024 – Present
Focus: user experience research, interface prototyping, digital storytelling, 3D & expanded reality design

Thamer International School, Jeddah

PROFESSIONAL EXPERIENCE

Google Developer Group Berlin
Media Trainee

- Support media and content coverage for GDG Berlin events and community programming.
- Produce photo, video, and written content documenting events for social channels.

EXPERIENCE / PROJECTS

Ordered by relevance. Completed as part of academic coursework and workshops, several in collaboration with external partners.

Sanda University Workshop, Shanghai — QR-Based Acupuncture App
UX Designer (Workshop)

- Designed a QR-code-triggered app experience in partnership with Shuguang Hospital's acupuncture department.
- Created content and interactions to keep patients engaged and informed while waiting for treatment.

Org Verlag — Website Design for Youth Audience
UX/UI Designer

- Designed a new website concept aimed at attracting a younger readership.
- Shaped visual tone and content structure to feel more contemporary and engaging.

Golem.de — UX & Content Strategy Deck
UX Designer & Content Strategist

- Collaborated with Golem.de on a strategy deck addressing UI and content direction.
- Translated research findings into actionable design and content recommendations.

Handic.app — App Concept, Landing Page & Branding
UX/UI Designer

- Designed the app concept, landing page, and logo for a student-run business.
- Created user flows, wireframes, and high-fidelity screens.

Wildpark Schorfheide — Campaign & Digital Design
UX/UI & Graphic Designer

- Designed a poster, large-format banner, and pamphlet for visitor communication.
- Designed the park's website and a companion app concept for on-site visitor engagement.

Kiwi.ki — Smart Lock App Redesign
UX Designer

- Redesigned the smart-lock app and simplified the keyless access flow.
- Developed a new user path for faster, more intuitive unlocking.

Rafaela Scheidmann — Alltag Begleitung Website & Brand Strategy
UX/UI Designer & Brand Strategist

- Created a website design for Rafaela Scheidmann's Alltag Begleitung service.
- Developed the brand strategy and visual direction to establish a clear, trustworthy presence.

Centaur Leather — Product Development & Design
Project Manager & Product Designer

- Developed two new leather products from concept to prototype.
- Aligned design with brand aesthetics and production feasibility.
- Balanced functionality, material constraints, and market appeal.

Atmosfair — Website Redesign & Integration Strategy
UX Designer & Researcher

- Proposed integration of a CO_2 calculator into the flight-booking flow.
- Delivered usability analysis and annotated wireframes.

Willst du mit mir gehn — Landing Page Design
UI Designer & WordPress Developer

- Designed and built a WordPress landing page for an art/research project.
- Iterated based on feedback to improve clarity and emotional impact.
